The Altura project consists of 93 townhome units located in Bothell, Washington. Each unit is comprised of three levels of wood framing with five floor plan options. All units provide a choice of a rear deck or a rear patio. Each unit comes complete with a slate entry, hardwood floors in the kitchen, GE stainless steel appliances, granite countertops, crown molding, and a gas fireplace. In addition, each building is wrapped with Hardi Color Plus Siding. The Altura Townhomes are located within a masterplanned community that offers a variety of retail options.
