April, 2005 through
November, 2006

Project Team

Guy Mullendore - PM
Randy Eichenberger - Superintendent
Martin Moks - Foreman

The Liberty on Education Hill project began in the spring of 2005. The project consisted of 26 townhome style condominiums. Each townhome was slab on grade construction with wood framing, vinyl siding, and designer interior finishes. Some amenities at the site included: fully landscaped backyards, full mill-work packages, granite tile countertops, laminate wood flooring and electric fireplaces.
